

New Ocean
Shipmanagement Pte Ltd

ENVIRONMENTAL POLICY

The Company is acutely aware of the environmental impact of our activities. We are thus fully committed to the pursuit of "earth- friendly transportation" as well as enthusiastic participation in environment protection in environmental protection activities.

1. With a firm determination to achieve total safe operation, we establish a target for "zero" marine accidents including oil spills which have a great impact on the marine and global environment.
2. We further enhance environmental protection activities by setting our own targets, above and beyond legislative environment rules and regulations.
3. We set environmental objectives and goals, and evaluate and review them periodically in an effort to continually improve our environment management system.
4. We make all possible efforts to prevent pollution, including the active introduction of new technologies that can reduce air and marine pollutants.
5. We enthusiastically promote activities to conserve resources and energy and minimize and recycle waste.
6. We shall ensure that the Environment policy is documented, maintained, communicated and implemented throughout the Company.
7. We shall endeavour to ensure all of our staffs attain a greater awareness of the need for environment protection in line with our environment policy through instruction, training and other activities.
8. We shall actively engage with all Company stake holders regarding the environmental matters.
9. We are committed to comply with all applicable legal requirements as well as other requirements to which the Company subscribes in relation to its Environmental aspect.

We make available to the public on updates to our environmental policy

Capt. Ryuichi Takebayashi
Managing Director
